

Screening for incontinence by health centers

Dr. Bernhard Uhl

Department for Obstetrics and Gynecology

St. Vinzenz-Hospital Dinslaken

Germany

Screening why

- Inkontinenz ist in Nepal sehr verbreitet
- Inkontinence: Reduces quality of life
- Inkontinence: Reduces power
- Inkontinence: Can be treated
- Inkontinence: Nobody wants to speak about

Screening How?

- Ask for incontinence with every opportunity
 - Means every contact to womens older than 20
- Ask special Questions
 - Do you suffer from urinary incontinence
 - Do you know someone who is suffering from urinary incontinence
 - Do you need toilet more than 8 times a day
 - Do you need toilet more than once a night
- Ask in respect to privacy
- Make documentation
- Send suffering people to Dhulikhel Hospital
